Dear Parents,

We know that caring for a child with autism can leave you with little free time, and we are grateful for you doing so. The following list of questions will help you create an informative review of the service provider that you would like to share your experience with, and is meant to be a guideline. It is not necessary to answer every single question, nor is there a required format. The more questions you answer, the better other parents will be able to benefit from your experience, but again, there is no minimum.

The only requirements are that:

1. You are speaking from first-hand experience, and that the information you share is your own.
2. You provide your name, location, and email address. This information will not be published on the website, nor will it be disclosed to anyone from the service provider. This is simply a means of verifying the validity of your review.

Thank you for your assistance, if you have any questions, please email editor@autismuae.com. We look forward to your feedback, and pooling together our knowledge the good of our children.

Thank You!
Editor,
